Warsaw, 14 May 2015

<p>Opinion of the Company's Management Board</p> <p>providing the grounds for the exclusion of pre-emptive rights with respect to J series shares, proposed issue price of J series shares and the validity of the conditional share capital increase:</p> <p>"The reasons for depriving the existing shareholders of their pre-emptive rights with respect to J series shares are connected with the issue objective, i.e. conferring the rights to subscribe for these shares to participants of the incentive scheme implemented in accordance with the resolution of the General Meeting of ABC Data S.A. dated 16 June 2015. The participants of the incentive scheme may not acquire J series shares unless the conditions specified in the resolution are met. <i>The above-mentioned individuals must be afforded the opportunity to acquire the Company's new shares in order to enable the Company to satisfy its obligations under the incentive scheme implemented on the basis of the above resolution. Participants of the scheme include those whose work is of key importance to the Company. The opportunity to acquire J series shares will be an incentive for those individuals, contributing to an increase in the effectiveness of the Company's operations. The incentive scheme under which Series J Shares are to be offered to the above-mentioned persons will link these persons on a long-term basis with the Company</i></p>	<p>Opinion of the Company's Management Board</p> <p>discussing grounds on which the right of first refusal to take up Series J Shares should be excluded, justifying the proposed issue price of Series J Shares and the discussing grounds for the share capital to be conditionally increased:</p> <p><i>"The exclusion of the rights of first refusal to take up Series J Shares, which are held by existing shareholders is justified by the purpose for which the above-mentioned shares are issued, i.e. the granting of rights to take up these shares to participants of the incentive scheme realized according to a resolution of General Meeting of ABC Data S.A. dated 16th June 2015. The participants of the incentive scheme may purchase Series J Shares as soon as the conditions set out in the above-mentioned resolution are fulfilled. The above-mentioned persons must be given the opportunity of taking up Company's shares of the new issue in order for the Company to fulfil its obligations arising under the incentive scheme realized on the basis of the above-mentioned resolution. Persons participating in the scheme include those whose work is of a key importance for the activity of the Company. The opportunity of acquiring Series J Shares can be an incentive for these persons and can contribute to an increased effectiveness of the Company. The incentive scheme under which Series J Shares are to be offered to the above-mentioned persons will link these persons on a long-term basis with the Company or its subsidiaries and affiliates.</i></p>
--	---

or its subsidiaries and affiliates. As the Company's performance depends on the Company's employees, it is necessary to retain highly qualified specialists in the Company to ensure its proper development.

For these reasons, to deprive the existing shareholders of their pre-emptive rights to J series shares is in the best interests of the Company and is not contrary to the interests of the Company's shareholders.

The issue price of J series shares offered under the incentive scheme will be PLN 5.00. The Management Board believes that such method of determining the issue price is consistent with the assumptions underlying the incentive scheme which seeks to motivate the scheme participants in the long run and thus to ensure the continued growth of the shareholder value.

In order to implement the incentive scheme, it is necessary to issue the Warrants which will entitle the participants in the incentive scheme to acquire J series. In view of the above, it is necessary to deprive the existing shareholders of their pre-emptive rights with respect to the Warrants, pursuant to Article 433 § 6 of the Commercial Companies Code. As the issue of the Warrants pursues the incentive scheme under which the Warrants will play an incidental role, the Warrants will be issued free of charge.

Taking into account the fact that the Company's performance depends on the performance of its employees, establishing the Company's long-term relationship with high class specialists is necessary to ensure the Company's proper development.

For these reasons, excluding the right of first refusal to take up Series J Shares vested in the existing shareholders and allowing the participants of the incentive scheme to take up these shares is in the interest of the Company and is not at variance with the interests of the existing shareholders in the Company.

The issue price of Series J Shares offered within the framework of the incentive scheme shall be PLN 5.00. In the opinion of the Management Board the above-mentioned formula of fixing the issue price complies with the assumptions of the incentive scheme, which is to motivate the scheme participants on a permanent basis and, thereby, assuring a continuous increase of value of the Company's shares.

In order to realize the incentive scheme it is necessary to issue Warrants entitling the participants of the incentive scheme to acquire Series J Shares. Therefore, it is necessary to exclude the rights of first refusal to take up the Warrants pursuant to Art. 433 § 6 of the Commercial Companies Code. Given that the issue of Warrants is to facilitate and support the realization of the incentive scheme, it has been decided that the Warrants will be delivered free of charge.
